## The Final Impact - Wake Up Call

### Verse

There are people sitting around  
Powerless and bored  
The trist everyday world took away their colour of life  
They have no stories to tell, no experiences to share  
There would be so many chances to take, but no one of them dares

### Chorus

Within the times of your discontent,  
You better snatch up and strike your camps  
The world out there could beat you down  
But chase your aims and stand your ground  
Snatch yourself and reanimate  
Why should you do the things you rather hate?  
So get your ass up, live your life  
Untie the chain that swats your drive!

This is our wake up call, it will rip you out of your stiffness  
Not smooth but loud and hard, break free and spread the words!

### Verse

No grit to get off the track, to try out something new  
With a minimum of outlay, they want to get over the day  
Hesitance won't push you forward but days are passing by  
Life is what you make out of it, so get up and don't waste your time!

### Chorus

Within the times of your discontent,  
You better snatch up and strike your camps  
The world out there could beat you down  
But chase your aims and stand your ground  
Snatch yourself and reanimate  
Why should you do the things you rather hate?  
So get your ass up, live your life  
Untie the chain that swats your drive!
