The Final Impact - My Agony

Verse

I lost the strife against my worries
Now I'm caught in a world of black despair
The crushing tightness takes my breath away
I'm turning me, the void is everywhere

Chorus

And while I'm in my agony
There's no way to get out, no one will help me anymore
Cause there's nobody now who cares for me
Although they cared form e before

Verse

The walls around are numb and cold
It's the spitting image of my sight
My faint heartbeat is uncontrolled
My depression buried mea live

Chorus

And while I'm in my agony
There's no way to get out, no one will help me anymore
Cause there's nobody now who cares for me
Although they cared form e before

Bridge

They leave me alone, with my problems
Now I'm down in my bane
Forsaken even from my friends, no compassion
Lost ist he tribute I had gained
I can't get out, I'm too deep in my depression
I can't get out, I was recognized before
I just don't know, why they don't help me out of here

Chorus

And while I'm in my agony
There's no way to get out, no one will help me anymore
Cause there's nobody now who cares for me
Although they cared form e before
