## The Final Impact - When The Weapons Are The Voices

### Verse

Might storms all over the land  
The arms are livid and the peace is banned  
Bursts, shots, there is no faith  
And no compassion, 'cause the bullets are accurate

No one thinks about a useful key, 'cause everybody is busy with war  
Those responsible escaped in another world  
Where they have no charge anymore

### Verse

Pure destruction, many civilians loose their alls  
Mainly resistance by the people who should find solutions  
None of them thinks about a crying mother with a death child in her hands  
Shooted by mistake by a combatant but during war there is no bad conscience

When the weapons are the voices  
Then all approaches are drowned  
'Cause when the weapons speak  
The state is in background  
And the soldiers fight  
They are forced to slay  
While the people in power are sheltered and save
